Also disclosed are the major classes of inventories (such as finished goods, inventoried costs relating to long-term contracts or programs, work in process, raw materials and supplies, LIFO valuation allowance). For LIFO inventory, disclose the amount and basis for determining the excess of replacement or current cost over stated LIFO value (for LIFO inventory), and the effect of a LIFO quantities liquidation that impacts net income. For companies that have not fully adopted LIFO, include the extent to which LIFO is used. For SEC registrants, if a LIFO company discloses FIFO-based supplemental income in a footnote, disclose: (a) that LIFO results in a better matching of cost and revenues, (b) why supplemental income disclosures are provided, and (c) important assumptions in its calculation (e.g. assumed tax rates).

Public entity disclosures for defined benefit pension and postretirement benefit plans often include: 1) a reconciliation of beginning and ending balances of the benefit obligation for all balance sheets presented, 2) the effects on benefit obligation during the period attributable to certain elements (e.g. service and interest costs, contributions by plan participants, actuarial gains and losses, foreign currency exchange rate changes, and benefits paid, 3) a reconciliation of beginning and ending balances of the fair value of plan assets for all balance sheets presented, 4) the effects on pension assets during the period attributable to certain elements (e.g. actual return on plan assets, foreign currency exchange rates change, contributions by employer and participants, and benefits paid), 5) net periodic benefit cost recognized as expense by components (e.g. service and interest costs, expected return of plan assets, amortization of unrecognized transition obligation or asset, recognized gain or loss, prior service cost, gain or loss due to settlement or curtailment), 6) the funded status of the plan, 7) amounts recognized and not recognized (e.g. prior service cost, gain or loss) in the balance sheet, and 8) the effect of a one-percentage-point increase and decrease in the assumed health care cost trend rate(s).
