Such loans are usually secured by mortgages or other liens on the related real property. Repayment terms on commercial real estate loans vary considerably. Interest rates may be fixed or variable, and the loans may be structured for full, partial, or no amortization of principal (that is, periodic interest payments are required and the principal is to be paid in full at the loan maturity date). Some give the institution recourse to third parties, who guarantee repayment of all or a portion of the loans. 1019		D	T	String	usfr-pte	<p>Business Segments Note</p> <p>Business Segments (Terse Label)</p> <p>BusinessSegmentsNote</p> <p>Information about other business activities and operating segments that are not reportable shall be combined and disclosed in an "all other" category separate from other reconciling items. The sources of the revenue included in the "all other" category should be described. Disclose types of products and services from which each reportable segment derives its revenues. Provide an explanation of the measurements of segment profit or loss and segment assets for each reportable segment. At a minimum, disclose the following: 1) The basis of accounting for any transactions between reportable segments. 2) The nature of any differences between the measurements of the reportable segments' profits or losses and the enterprise's consolidated income before income taxes, extraordinary items, discontinued operations, and the cumulative effect of changes in accounting principles (if not apparent from the reconciliations described below). 3) The nature of any changes from prior periods in the measurement methods used to determine reported segment profit or loss and the effect, if any, of those changes on the measure of segment profit or loss. 4) The nature and effect of any asymmetrical allocations to segments. For example, an enterprise might allocate depreciation expense to a segment without allocating the related depreciable assets to that segment. If an enterprise changes the structure of its internal organization in a manner that causes the composition of the reportable segments to change, the corresponding information for earlier periods, including interim periods, should be restated unless it is impracticable to do so. Following a change in the composition of its reportable segments, disclose whether the corresponding items of segment information for earlier periods have been restated.</p> <p>Companies often disclose the reportable segments of their business and how they determined the segments (e.g. by products and services, geography, regulatory environments, etc). For each segment, specific amounts of items are often reported, such as revenue by product/service and external customers, profit or loss, total assets, interest revenue and expense, depreciation and amortization expense, income tax expense, and expenditures on long lived assets. Explanations are often included on differences between each segment, such as 1) certain measurements of segment profit or loss (e.g. income before taxes, extraordinary items, discontinued operations, change in accounting principle) and assets and 2) changes in methods and measurements from prior year, between segment and consolidated assets. Reconciliation is also provided between the total of the segment items disclosed (e.g. revenue, assets, etc) to the consolidated entity. If not disclosed as part of operating segment information, disclose: (a) total revenues from external customers for each product and service, (b) geographic information about revenues from external customers and long-lived assets, and if this is impracticable, that fact shall be disclosed. If revenues from a single external customer are 10 percent or more of total revenues, disclose the total amount of revenues from each such customer and the identity of the segment or segments reporting the revenues.</p>	131 21 FASB (Standard); 131 25 a FASB (Standard); 131 26 b FASB (Standard); 131 31 FASB (Standard); 131 34 FASB (Standard); FAS 131 27, 36-39 Financial Accounting Standards Board <a href="http://www.fasb.org/pdf/fas131.pdf">http://www.fasb.org/pdf/fas131.pdf</a> 35582 (Standard)

1132		D	T	String	usfr-pte	Investments Note Investments (Terse Label) Investments Disclosure of major security types (equity, debt issued by US government agencies, corporate, foreign governments). For securities classified as available-for-sale, disclosure often includes by each major security type the aggregate fair value and total gains or losses in other comprehensive income. For securities classified as held-to-maturity, the following is often included by each major security type: aggregate fair value, gross unrecognized holding gains and losses, net carrying amount, and gross gains and losses in accumulated other comprehensive income. For investments in debt securities disclose information about the contractual maturities and the fair value and net carrying amount of debt securities by the following time periods: within 1 year, 1-5 years, 5-10 years, and after 10 years. For each period results of operations are presented, the following is often disclosed: 1) the proceeds from sales of available-for-sale securities, 2) gross realized gains and losses, 3) the basis on which the cost of a security sold was determined, 4) gross gains and losses included in earnings from transfers of securities from the available-for-sale category into the trading category, 5) the amount of net unrealized holding gain or loss on available-for-sale securities in accumulated comprehensive income and amount reclassified out, 6) the portion of trading gains and losses in which trading securities are still held. For sales of or transfers from securities classified as held-to-maturity, the following is often included: net carrying amount of the security, net gain or loss in accumulated other comprehensive income that hedged forecasted acquisitions of these securities, realized or unrealized gain or loss at the date of sale or transfer, and the circumstances leading to the decision to sell or transfer the security. Public entity disclosures for defined benefit pension and postretirement benefit plans often include: 1) a reconciliation of beginning and ending balances of the benefit obligation for all balance sheets presented, 2) the effects on benefit obligation during the period attributable to certain elements (e.g. service and interest costs, contributions by plan participants, actuarial gains and losses, foreign currency exchange rate changes, and benefits paid, 3) a reconciliation of beginning and ending balances of the fair value of plan assets for all balance sheets presented, 4) the effects on pension assets during the period attributable to certain elements (e.g. actual return on plan assets, foreign currency exchange rates change, contributions by employer and participants, and benefits paid), 5) net periodic benefit cost recognized as expense by components (e.g. service and interest costs, expected return of plan assets, amortization of unrecognized transition obligation or asset, recognized gain or loss, prior service cost, gain or loss due to settlement or curtailment), 6) the funded status of the plan, 7) amounts recognized and not recognized (e.g. prior service cost, gain or loss) in the balance sheet, and 8) the effect of a one-percentage-point increase and decrease in the assumed health care cost trend rate(s). Nonpublic entity disclosures for defined benefit pension and postretirement benefit plans often includes: the benefit obligation, the fair value of plan assets, the funded status of the plan, employer contributions, participant contributions, benefits paid, net periodic benefit expense and the amounts recognized in the balance sheet (e.g. net pension asset or other postretirement benefit prepaid assets or accrued liabilities, intangible asset recognized (pension plans only), and the amount of accumulated other comprehensive income recognized (pension plans only) and effect of significant nonroutine events, such as amendments, combinations, divestitures, curtailments, and settlements. Disclosures applicable to all entities for benefit pension and postretirement benefit plans include: 1) other comprehensive income from a change in the minimum pension liability recognized, 2) the weighted-average assumed discount rate, the weighted-average rate of compensation increase, and the weighted-average expected long-term rate of return on plan assets, 3) the assumed health care cost trend rate(s) for the next year used to measure the expected cost of benefits and its pattern of change, and 4) the amounts and types of securities of the employer and related parties included in plan assets, For Defined Contribution Plans, disclosures include: the nature and effect of significant matters affecting comparability of information for all periods and the amount of cost recognized as expense during the period. For Multiemployer Plans, additional disclosures include: if it is either probably or reasonably possible that 1) an employer would withdraw from a multiemployer plan resulting in an obligation, and 2) an employer's contribution to a multiemployer plan would be increased to maintain a level of benefit coverage (OPEB only).</p>	132 8 j FASB (Standard); 132 8 f FASB (Standard)

When percentage of completion method is used, disclose the method to measure the progress toward completion. For completed-contract method, disclose the specific criteria used to determine when a contract is substantially completed. Other disclosures include: (1) the circumstances in which a contractor using the percentage-of-completion method uses the completed-contract method, or vice versa, to account for certain contracts, (2) any claims in excess of the agreed contract price, (3) any advances offset against cost-type contract receivables. For inventories related to long-term contracts disclose: (a) the principal assumptions used to determine amounts removed from inventory if the estimated average cost per unit method is used, and (b) the total amount of general and administrative costs incurred and the actual (or estimated) amount remaining in inventory if general and administrative costs have been charged to inventory. Also disclose: (a) the total costs (current or deferred) that exceed the total estimated cost of all in-process and delivered units, as well as that portion of such amount that would not be absorbed in cost of sales based on existing firm orders, (b) the amount of deferred costs by type of cost (e.g., initial tooling and deferred production), (c) the total amount representing uncertain claims concerning their determination or ultimate realization and a description of the nature and status of the principal items, and (d) the amount of progress payments netted against inventory.</p>	Rule 5 2 3 c SEC (Standard)
